

Final touches coming for Gateway Project

The past few months have brought some important final steps being done to the Gateway Project. You might not have noticed all of them, but a tremendous amount of work is being completed. It all comes back to what we announced for this project some five years ago. The project's goals included increasing the safety of the traveling public, providing a financial boost to the region's economy, and increasing the capacity of this interchange so it may function more efficiently for many years to come. We have accomplished a lot of that.

Second quarter 2020 highlights included:

- Placed the final layer of asphalt on I-85, I-385, and Ramps.
 - Added pavement markings and raised pavement markers.
 - Continued painting of bridges.
 - Continued installation of overhead and ground mounted signs.
 - Continued installation of controlled access fencing.
 - Continued installation of digital message signs and traffic cameras.
 - Grassing.
 - Continued construction along Woodruff Road corridor.
-
- You can visit our [website](#) to learn more about work in the past few months. Have questions or concerns about the Gateway project? We are always available via our [email](#), or our hotline, [1-888-862-4824](tel:1-888-862-4824).

Upcoming Activities:

Here is what we project for the next few months of work:

- Complete painting of bridges.
- Complete installation of overhead and ground mounted signs.
- Complete controlled access fencing.
- Complete installation of digital message signs and traffic cameras.
- Final Grassing.
- Complete construction along Woodruff Road corridor.
- Final Cleanup and Demobilization.
